

KIT HOP

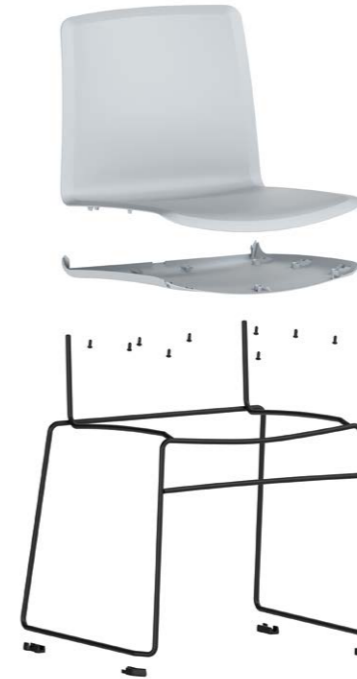

HOP KITS

HOP 1690

Design: Bangdesign

Hop è una seduta essenziale e altamente impilabile, progettata per spazi dinamici e collettivi. Le numerose varianti di telaio e di colore la trasformano in una collezione completa, capace di adattarsi a contesti diversi e a molteplici modalità d'uso. Accessori come la tavoletta scrittoio e il pannello sedile tappezzabile aumentano il comfort e la funzionalità, mentre l'impilabilità, anche su carrello, rende Hop una soluzione pratica e flessibile per ambienti in continua evoluzione.

Hop is an essential, highly stackable chair designed for dynamic, shared spaces. A wide range of frame and colour options turns it into a complete collection, adaptable to different settings and uses. Accessories such as the tablet arm and the upholstered seat panel enhance comfort and functionality, while stackability, also on a trolley, makes Hop a practical and flexible solution for ever-changing environments.

A FLEXIBLE SEATING SOLUTION
FOR CONTEMPORARY
SHARED ENVIRONMENTS.

HOP 1690

Design: Bangdesign

Realizzata in polipropilene, Hop combina resistenza, funzionalità e sostenibilità.

La scocca può essere abbinata a diverse tipologie di telaio – a 4 gambe, slitta, slitta con braccioli o base a 5 razze – dando vita a una collezione versatile, adatta a contesti differenti.

Le numerose configurazioni disponibili, insieme ad accessori come la tavoletta scrittoio, il pannello sedile tappezzabile e il cestino portariviste, ampliano le possibilità di utilizzo e il comfort.

Le versioni a 4 gambe e a slitta sono impilabili anche su carrello, mentre l'intera collezione è progettata per rispondere alle esigenze di spazi collettivi e ad uso intensivo.

Tutti i modelli sono conformi agli standard EN16139 livello 2 e ANSI-BIFMA X5.1.

Made of polypropylene, Hop combines strength, functionality and sustainability.

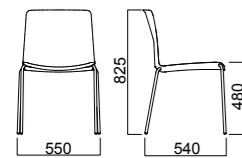

The shell can be combined with different frame options – 4-leg, sled, sled with armrests or 5-star base – creating a versatile collection suitable for a wide range of settings.

The many available configurations, together with accessories such as the tablet arm, upholstered seat panel and magazine rack, enhance comfort and extend usability.

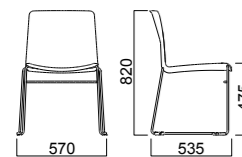

The 4-leg and sled versions are also stackable on a trolley, while the entire collection is designed to meet the demands of shared spaces and intensive use.

All models comply with EN16139 level 2 and ANSI-BIFMA X5.1 standards.
